Steel Wool Floor Pads

- *Can be used for wet and dry applications*
- *Unique pad construction with no welds, wire or stitches*
- *Has the strength to cut through dirt and grime, but is gentle on the finest of floors*
- *Designed to eliminate scratching while buffing to a brilliant luster*
- *Pad clings easily to the fibre brush of any disc-type floor machine. No adapters, holders or driving pads are needed*
- *Can be shaken out, rinsed, washed and reused*
- *Reversible for longer life*
- *Sizes and grades to fit every stripping, cleaning and polishing need*

No. 0 - Fine

- *Cleaning and polishing*

No. 1 - Medium

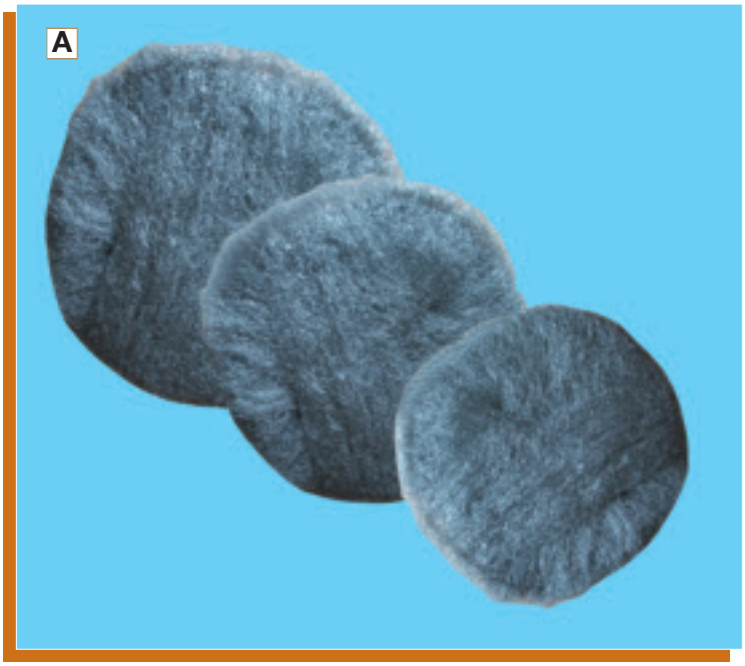
- *Cleaning and dry scrubbing*

No. 2 - Coarse

- *Scrubbing rough floors or preparing floors for waxing*

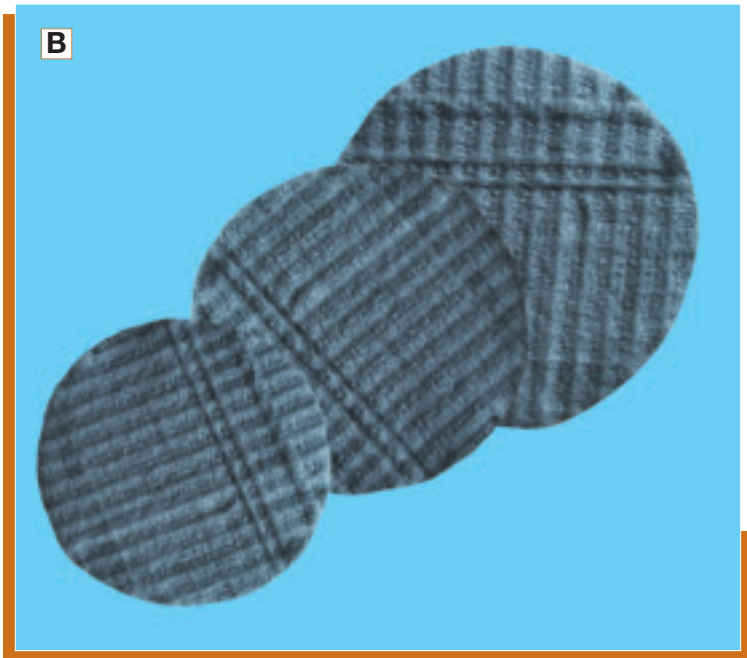
No. 3 - Very Coarse

- *Removing paint and varnish*
- *Smoothing and buffing wood floors*



A Ultra Steel Wool Ribbon Floor Pad

- *Thick and fluffy for high absorbency and minimum clog-up*
- *25% to 30% heavier than most other steel wool floor pads*
- *Cuts through the grime quicker and has room within the pad to absorb more of what it cuts as it cleans*
- *Can be used for cleaning, dry scrubbing, polishing or finishing almost any type of floor*
- *Made from a continuous ribbon of strong, high quality steel wool*



B Ultra Steel Wool Needled Floor Pad

- *Superb for polishing and buffing*
- *Exclusive, needle-punched construction makes them ideal for special problems like rough or uneven floors*
- *Tougher, stronger and compact - they outperform and outlast even the "premium" or "heavy-duty" pads*
- *Won't tear, shred, fray at the edges, roll or bunch up*
- *Radial action expertly cleans, dry scrubs, buffs, wax finishes or polishes floors of every description*
